

13 QUESTIONS TO ASK YOUR ONCOLOGIST

1. What caused my cancer?
2. Will your treatment cure my cancer?
3. If they will not cure it, what can I expect it to do?
4. If your treatments are able to put my cancer into remission, what are chances that my cancer will return? Please give me actual number.
5. If my cancer returns - after a period of remission - what will you do to treat it?
6. How effective are your treatments in eliminating the type of cancer that I have if it returns after a period of remission? Please give me exact numbers.
7. What will be the Side-Effects of your treatment?
8. How will you treat the Side-Effects?
9. How long will the Side-Effects last and what are the long term effects?
10. How much money will you make from my treatment?
11. How much money will this hospital make from my treatment?
12. Will you give me the names of 5 patients you have treated with this type of cancer five or more years ago? I want to ask each of them about their experience.
13. If the treatment fails, can I get a refund?
